

City of Newman Highway 33 Specific Plan Update

The City of Newman is updating their 1996 Highway 33 Specific Plan document, which acts as a planning tool to guide future development along the Highway 33 corridor for the next 20 years. The update will focus on pedestrian, bicycle, and vehicular transportation improvements, as well as land use along the corridor. These improvements will address transit needs, safety issues, implement the City's goal of 'complete streets', and reduce greenhouse gas emissions.
